

KVANT ClubMax 3000

Kvant ClubMax 3000 should be the choice no.1 for all medium sized venues and also for laser display professionals who want reliable and cost effective indoor laser show system. The beam properties and sophisticated design make the ClubMax 3000 very efficient with up to 3,500 people capacity venues.

It also offers long life span and performance that is sure to please your audience, whilst saving you time and money.

"The ClubMax lasers are radically simple solution for anything from several thousand people raves to the smallest private clubs and cosy venues. Developed with regard to challenging clubbing environments the design is optimised to allow for long maintenance intervals."

This model brings the following improvements:

TrueRGB colour management ensures consistent colours across the whole range and near linear response of brightness modulation output.

Redesigned main chassis for better and quieter cooling management.

New back panel with comprehensive number of control features.

Externally accessible beam alignment mechanism.

Direct compatibility with KVANT's DiscoScan 2.0 and SafetyScan lens brackets.

This laser projector uses our latest pure diode laser technology together with some other features you would hardly find on laser from other manufacturers at this price level. Its robust and sturdy design makes it an ideal laser system for permanent installations and hire.

Every system is delivered with Quality Control Certificate with recorded power output values of red, green and blue laser modules which are measured during the final quality control check.

Basic specification:

Type: full colour, pure diode white-light laser system

Guaranteed optical output: 3000mW (*see note below)

Suitable for: indoor events, laser graphics

Control signal I/O: ILDA (*Ethernet, ArtNet and SD snap-on control interface is optional)

Scanning system: ScannerMAX 506 Compact | 35kpps @ 8° (see options)

Safety: fully complies with the latest EN 60825-1 and FDA regulations.

Weight: 8.8kg

Package includes: heavy duty case, power lead, 10M ILDA signal cable, E-STOP remote with 10M cable, set of 4 safety keys, interlock connector, CD with PDF manual.

*Due to Advanced Optical Correction technology used in our laser systems the optical power of each colour within installed laser module(s) may slightly differ from the specification of respective laser module(s).

Skelet:

Name: ClubMax 3000

Length: 307

Width: 255

Height: 168
